SKILLS

Specializing in accents, character work, and development, my strengths are building a character and implementing said character into the space the script offers. Giving more dimension to the scene and others through actions. Blocking scenes and being spatially aware of lighting and the camera due to my work done in production as well as on the screen. Conditioned for “on the go” work, can damage control and problem solve during intense situations. Always willing to do more, fill in a job, grab a C-stand, to sacrifice whatever it may be for the good of the film.
